

MATERIAL SAFETY DATA SHEET

PRODUCT: 091001684

DESCRIPTION: PLATE WITH INSIDE EDGE

According to the Occupational Health and Safety Administration's (OSHA) definition of "hazardous chemical" contained in 29 CFR 1910.1200 (c) and 29 CFR 1926.59 (c), the item above supplied to you is not covered by the federal Hazard Communication Standard.

This item meets the definition of an "article" contained in the definitions of 29 CFR 1910.1200 (c) which states, "Article means a manufactured item: (I) has end use function (s) dependent in whole or in part upon its shape or design during end use; and (iii) which does not release, or other wise result in exposure to, a hazardous chemical, under normal conditions of use.

The item above supplied to you is suitable for its intended purpose and end use. As such, they should not be altered, modified, machined, or re-worked. Any alteration, modification, or machining of the item supplied to you is not a normal condition of use for which the item was supplied and, therefore, not covered by the Hazard Communication Standard.

Should our manufacturing process for this item change which would then cause this item to no longer be defined as an article, we will furnish a material safety data sheet to you upon your next purchase of the item and any time the material safety data sheet for that item is revised. Should you require additional information concerning the item, please contact us at 800-323-5547, or Fax: 800-547-4333.
